**14 CFR Part 71**

**[Docket No. FAA-2017-0523; Airspace Docket No. 17-ACE-9]**

**Amendment of Class E Airspace; Fort Scott, KS; and Phillipsburg, KS**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action modifies Class E airspace extending upward from 700 feet above the surface at Fort Scott Municipal Airport, Fort Scott, KS, and Phillipsburg Municipal Airport, Phillipsburg, KS. This action is required due to the decommissioning of the Fort Scott non-directional radio beacon (NDB) and the Phillipsburg NDB, and the cancellation of the associated instrument approach procedures. This action enhances the safety and management of instrument flight rules (IFR) operations at these airports.

**DATES:** Effective 0901 UTC, May 24, 2018. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

**ADDRESSES:** FAA Order 7400.11B, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at [http://www.faa.gov/air\\_traffic/publications/](http://www.faa.gov/air_traffic/publications/).

#### **SUPPLEMENTARY INFORMATION:**

##### **Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace extending upward from 700 feet above the surface at Fort Scott Municipal Airport, Fort Scott, KS, and Phillipsburg Municipal Airport, Phillipsburg, KS, to support IFR operations at these airports.

##### **History**

The FAA published a notice of proposed rulemaking in the FEDERAL REGISTER (82 FR 46426; October 5, 2017) for Docket No. FAA-2017-0523 to modify Class E airspace extending upward from 700 feet above the surface at Fort Scott Municipal Airport, Fort Scott, KS, and Phillipsburg Municipal Airport, Phillipsburg, KS. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA.

No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

### **Availability and Summary of Documents for Incorporation by Reference**

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### **The Rule**

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies Class E airspace extending upward from 700 feet above the surface:

Within a 6.4-mile radius (reduced from a 7-mile radius) of Fort Scott Municipal Airport, Fort Scott, KS; removing the Fort Scott NDB from the legal description; and removing the extension north of the NDB;

And within a 6.5-mile radius (reduced from a 7.6-mile radius) of Phillipsburg Municipal Airport, Phillipsburg, KS; removing the Phillipsburg NDB from the legal description; and removing the extension southeast of the NDB.

Airspace reconfiguration is necessary due to the decommissioning of the Fort Scott NDB and the Phillipsburg NDB, the cancellation of the associated instrument approach procedures, and to bring the airspace in compliance with FAA Order 7400.2L, Procedures for Handling Airspace Matters. Controlled airspace is necessary for safety and the management of IFR

operations at these airports.

### **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
